8. Prior to the beginning of the silver season (August 15), contractor will inspect and if necessary, restore any fallen, damaged or missing channel markers and buoys to assure their capacity to last to the end of the season.
9. Latitude and longitude of each individual marker pole will be provided by the contractor to CDFU no later than May 10 of each year. Additionally, the contractor must provide a map of the area with markers plotted for visual reference.
10. Each year's renewal of this three year contract, commencing April 1, 2009 will be subject to an evaluation of the previous years' performance by the CDFU Executive Director.

12. In 2010 and 2011, the selected contractor will be given the opportunity to renegotiate the flat rate payable with the CDFU Executive Director, by March 31 of each year.
13. CDFU reserves the right to terminate the selected contract by way of two weeks written notice for failure to perform the terms of the contract, poor performance, or if CDFU should no longer administer the staking contract.
